

SCUDO

FITTED FURNITURE

EDITION 18

Locally made products designed and built right here in Britain. Every piece in the Scudo collection is created to the highest standard and delivers on quality and design.

Robust design, high-quality materials, and expert craftsmanship combine to create superior doors and carcasses at unbelievable prices.

EASY INSTALL

Internal carcasses come pre-assembled and are easy to fit. However, we recommend you get a professional to put everything into place for you. This will ensure your brand-new bathroom will be ready to go in no time.

- 160mm plinth height for for soil pipe clearance
- Adjustable legs
- Wall brackets included for optional wall mounting
- Pre-drilled door hinges
- Removable panels for cistern access

For added peace of mind, all of our fitted furniture products are covered by a lifetime guarantee.

Two Unique Styles...

The Choice is Yours

MODERN - FITTED FURNITURE

For a smooth, minimalistic look, select this sleek ultra-modern flat door design. Take your pick from a diverse palette of chic neutrals or bring the outside in with natural wood tones.

TRADITIONAL - FITTED FURNITURE

Seamless fitted furniture with a bespoke, hand-crafted feel. This style suits everything from classic bathroom layouts to contemporary setups.

FITTED FURNITURE

A VERSATILE SOLUTION FOR A UNIFIED LOOK

Bring your dream bathroom to life when you select your favourite elements from our range of fitted furniture. Whether you have a large room to fill or you're reimagining a compact space, you can handpick every cabinet and cupboard door to make it look neat, sleek and sophisticated.

Every element of this range is produced to the highest standard, combining contemporary lines and elegant details to deliver the perfect look for your home.

Creating your brand-new bathroom is easy. Browse the collection of colours and sizes to find the combination that works for you. Follow each stage of the design process on page 136 to tailor your new bathroom.

Begin your design journey by taking a look at pages 140-151. Here, you can get inspired by the combinations we've created. Once you have an idea of what you'd like to do in your own bathroom, download our supplement (QR code above) to select your own bespoke furniture setup.

END PANELS AND PLINTHS

All end panels and plinths are 18mm thick

PLEASE BE AWARE CUTTING OF END PANELS AND PLINTHS MAY BE REQUIRED WHEN FITTING

USEFUL INFORMATION

PROFESSIONAL INSTALLATION RECOMMENDED

For a flawless finish, choose an experienced and qualified installer to fit your new bathroom furniture. It's worth researching services on offer from your local retailer as many provide an in-store design and installation service, or can recommend suitable fitters and tradesmen local to you.

You Decide

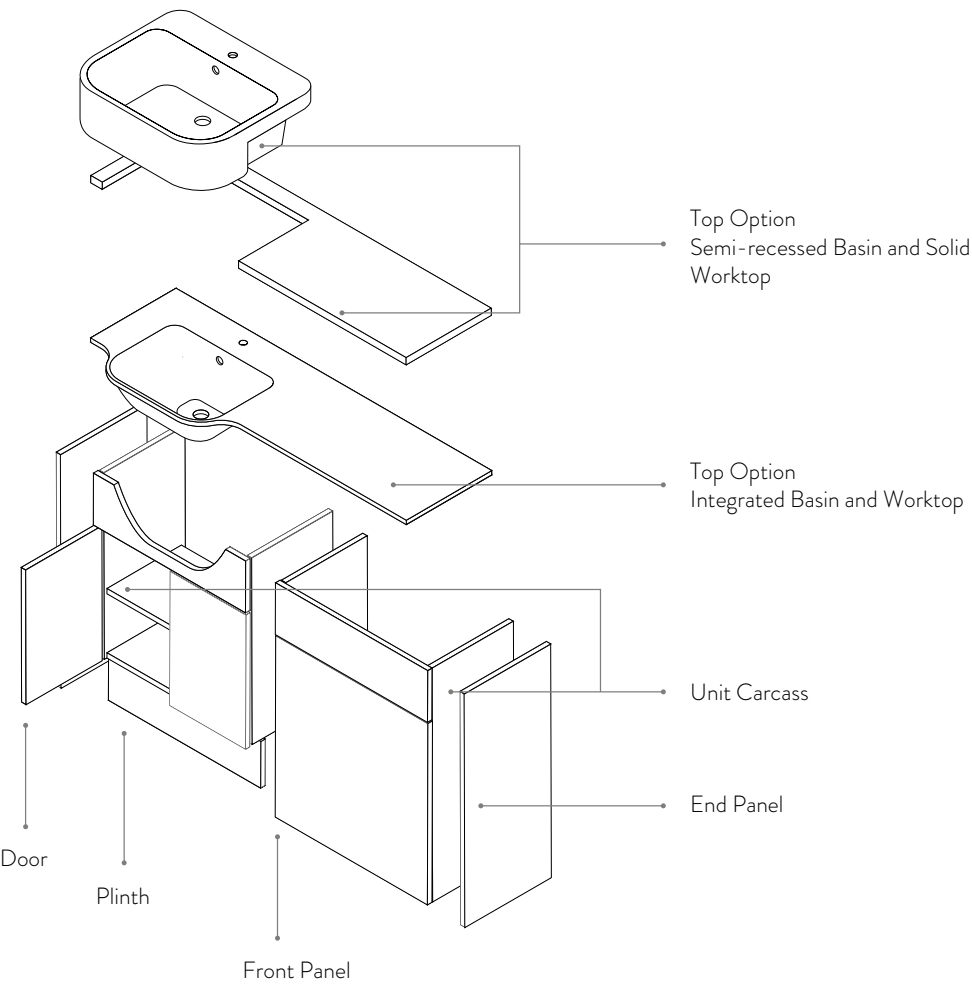

Your fitted furniture doors aren't pre-drilled, meaning you can let your installer know exactly where you would like to position the handles. This gives you added flexibility and the final say about how you'd like your doors to look.

A Smooth Look

End panels are needed to cover any exposed carcass colour and finish off the look of your units. These can also be used in between adjoining units to create a traditional framed look. This is particularly effective if you've selected a traditional style for your bathroom.

FITTED FURNITURE PARTS EXPLAINED

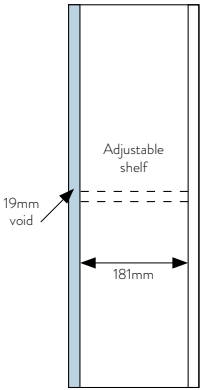

From end panels to plinths, there are lots of parts that make up fitted furniture units and understanding what each component is needed for can be confusing. To make things clearer, we've created the below diagram for a quick reference to all the components that make up fitted furniture.

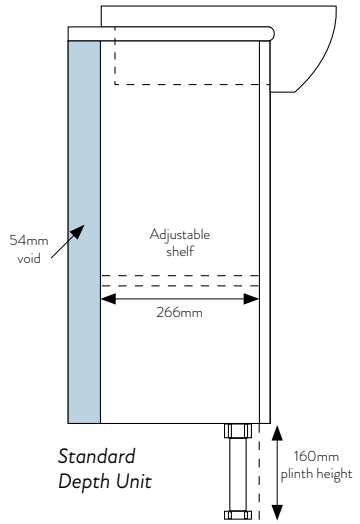

CONCEALING PIPEWORK

Pipework is essential for a functioning bathroom, however it can be unsightly unless it's concealed. When you choose our fitted furniture, you can hide any pipes behind units, whether they run along skirting boards or up walls.

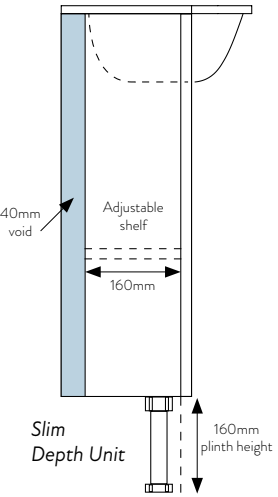

The furniture is designed with a plinth height of 160mm, so even soil pipes can run under the units. In addition, units feature a void at the back that allows pipes to run along the walls while keeping them concealed. To make this operate effectively, your fitter will notch out the side panel of the unit where the pipe travels.

Cutting Advice

We recommend professional installation using the following process to cut:

1.

Cut surface to size using a circular saw suitable for stone.
2.

Use a router to make a clean edge.
3.

Use a trimmer to bevel the cut edges.
4.

Sand using 80 grit sandpaper to smooth, then 200 grit paper to finish.
5.

Polish with T-Cut to create a perfect finish.
