WRAS Approval Number: 2306081

Approved Product

Range of wall mounted thermostatic bar shower mixers (brass bodies – chrome plated or black finish) incorporating quarter turn ceramic disc headwork controlling the flow with cubed or dome type operating members. The temperature is controlled independently via a thermostatic cartridge cube or dome type operating members incorporating a manual override button. The inlets incorporate stainless steel strainers and approved check valve cartridges; however, the complete product has not been fully tested to demonstrate it provides backflow protection. Maximum working pressure 5.0 Bar

Non-metallic materials and components comply with BS6920 at 60°C

Section: 2010 Valves (?section=2010)

Section Subtitle: Blending, thermostatic.

WRAS Approval Number: 2306081

Expiry date: 30/06/2028
