WRAS Approval Number: 2203067

Approved Product

A range either concealed or exposed wall mounted thermostatic mixing valves with brass bodies (exposed models are chromium plated). Incorporates ¼ turn ceramic disc headworks. The inlets of all models except F3004 incorporate stainless steel filters and approved check valve cartridges; however, the complete product has not been fully tested to demonstrate it provides backflow protection. Maximum working pressure 10 bar. Maximum working temperature 60°C.

Section: 2010 Valves (?section=2010)

Section Subtitle: Blending, thermostatic.
