**Section:** 0470 Combination Tap Assemblies (?section=0470)

**Section Subtitle:** Single hole, metal, single outlet, swivel. Taps used in high risk installations, such as kitchen sinks, are considered to be a fluid category 5 risk. Backflow protection is usually provided in the form of an AUK3 tap gap. Where an AUK3 tap gap cannot be maintained, for example where the tap gap is compromised as a result of:- • the tap being lowered in any way; • adjustment to the spout which reduces the distance between the tap outlet and spillover level of the sink; • or the operation of a pull out hose attachment; alternative fluid category 5 backflow protection is required.

**WRAS Approval Number:** 2206064

**Expiry date:** 30/06/2027

**Size:** Stainless steel braided hoses with a PEX inner hose with 1/2" BSP captive nut end connection

**Marking:** SCUDO on body

**Installation Requirements:** R001 (/approvals/testing-requirements/installation\_requirements/irn\_r001)R006 (/approvals/testing-requirements/installation\_requirements/irn\_r006)R010 (/approvals/testing-requirements/installation\_requirements/irn\_r010)

**Model:** ADOUR CH, KT11,NICK11,PIQUA CH, KT14L, NICK14, MESA CH, KT41, KT42, KT43, KT44, TARAVO CH, TARAVO GUNMETAL, TARAVO BN, TARAVO COPPER, TARAVO GOLD & TARAVO MB

**Factor:** Harrison Bathrooms Incorporating Scudo
