Technical Details

Heated Demister Pad

- This mirror comes with a demister pad, which heats the surface of the mirror above room temperature removing the mist on surface.

IR Sensor On/Off Switch

- Turn the Led Light ON/OFF

To turn on or off, wave hand under the sensor switch located at the bottom of the mirror marked by hand sensor sticker. The Heated Pad is only on when the Mirror is illuminated.

Installation Information

- We recommend that you receive the product before commencing with installation as all sizes and measurements are approximate. We try to ensure all measurements are as accurate as possible. In the interest of continued product development, we reserve the right to alter specifications as necessary. E & OE.

Aftercare Service

- In the unlikely event that this product should fail please contact our customer service.

Special Remind

- If you find the light is not on, please check the male and female connector around the top hinges first, sometimes the connection might be loose which might cause the failure.

Please make sure they're connected tightly like steps as below:

'If you find they're loosened, please make sure they are connected tightly'

'Please find the male and female connector inside the black tubes at both top of the inside cabinet'

Please Note

Products with an IR Sensor must be installed with a minimum distance of 250mm between the sensor and any solid object or reflective surface. Avoid directing sensor towards a reflective surface as this will may affect its function.

1. Before installing the product, please carefully read the instructions and operate accordingly.
2. Before installing, please turn off the main power switch and ensure that it won't turn on.
3. The installation of this product requires that a competent person with electrical knowledge installs this product.
4. This mirror cabinet is heavy, do not lift or install with single person in order to avoid injury.
5. Before installing, please check whether the product is broken, to avoid injury caused by damaged glass.
6. Do not clean the product surface with acid and alkaline cleaning agent; please use a damp cloth.
7. In case of functional failure of the product, users are not allowed to disassemble and repair without authorization, otherwise, our company will not be responsible for any safety accidents.

Installation Setup

1. Fixing the bar

- ① Open the product packaging, and check whether the product has any cosmetic or functional damage; if yes, please return it to the dealer.

- ② After selecting the location of the mirror cabinet, check whether the wall is solid, measure the distance of the holes (a1,a2,a3) in the aluminum alloy bar with a tape measure and mark the wall with a level and pencil (Fig. 1).

Fig.1

Fig.2

- ③ Drill holes in the marked positions with a suitable drill bit.

2. Positioning and Installation of Mirror Cabinet

- ① Attach the mirror cabinet to the bar as shown in Fig. 3.
- ② Turn on the main switch, and test if the switch works normally.

LUMINAIRE

Waste Electrical & Electronic Equipment Regulations (WEEE) requires that any of our products showing this mark (left) must not be disposed off with other household or commercial waste. We do not levy any WEEE disposal charges to its customers for affected WEEE related products. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate any such product from other waste types and recycle it responsibly at your local facilities. Check with your Local Authority, Recycling Center or retailer for

Child Safety Notice

Please note that you are 100% legally responsible for your own child's safety at home. Once installed, the mirror can become a hazard for children as this mirror is not designed to support unreasonable extra weight. We must stress that you should not allow children to climb/grab/play with the mirror or cabinet, as this can cause accident or injury for the child from failing, or the mirror being pulled off the wall.

Before installing the product, please read carefully the following WARNINGS:

- Special care must be taken if children or vulnerable adults are present;
- Children must be kept away from this appliance unless they are constantly supervised. Children should not play with the appliance. Cleaning and maintenance should not be performed by children.
- Installation should only be completed by a qualified person.
- Brackets kit includes standard wall-plugs suitable for solid walls only! Please use suitable fixings and bracing for non-solid walls.
- To prevent damage to the product, remove packaging carefully.
- To prevent the deterioration of the finish, do not hang humidifiers made of porous or corrosive materials on the mirror.
- Clean the mirror with a damp soft cloth. Never use corrosive or abrasive cleaning agents based on acidic substances.
- The company is not liable for any damage to persons or properties, due to non-compliance with the above.
