# SCUDO BY HARRISON BATHROOMS

**Rooted in more than a century of bathroom expertise, Scudo is the contemporary expression of Harrison Bathrooms – a family-owned business built on quality, service and considered design.**

Combining over 100 years of family heritage and industry knowledge with a forward-thinking approach to product development, we create distinctive bathroom collections designed for modern living. From sculptural furniture and beautifully coordinated finishes to innovative showering and intelligent functionality, every Scudo product is developed with quality in every detail.

## THE SCUDO DIFFERENCE

### Five-Star-Rated Products and Service

Trusted by thousands of homeowners across leading review platforms.

### Exceptional Product Quality

Considered materials, intelligent features and meticulous attention to detail.

### Virtual Worlds Partner

Explore Scudo products through immersive 3D bathroom designs

### Lifetime Guarantee

Providing lasting confidence long after installation.

COLOUR SCUDO

One Colour. One Bathroom. One Brand.

## PERFECTLY COLOUR MATCHED

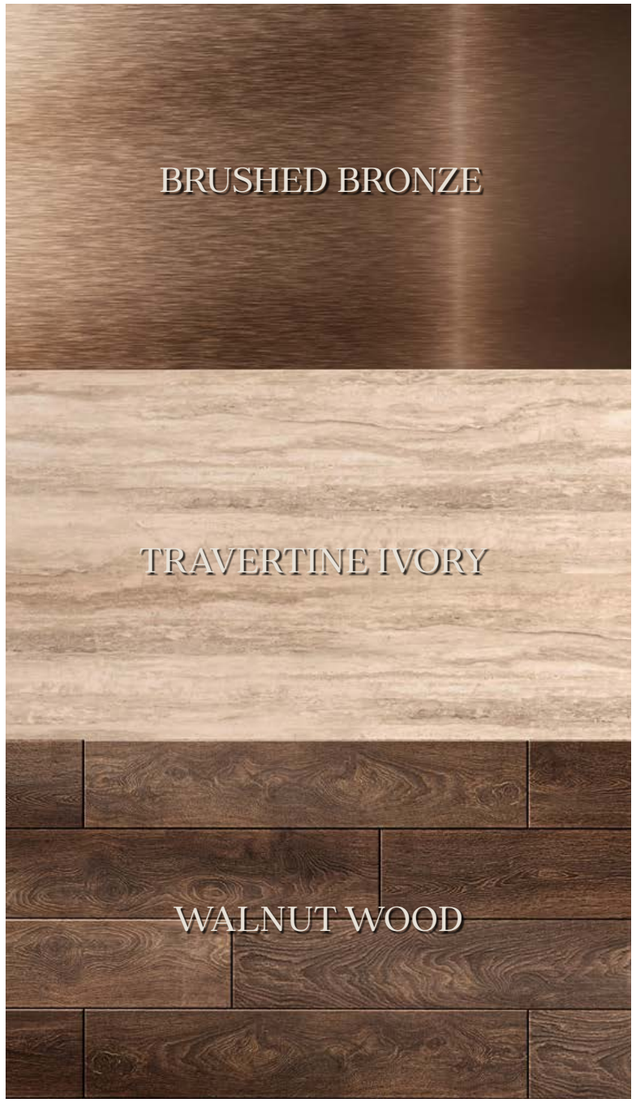
### COLOUR THAT'S AS UNIQUE AS YOU ARE

Bring personality and individuality to your bathroom with Colour by Scudo. Designed to coordinate seamlessly across brassware, showering and accessories, our carefully curated finishes create a beautifully considered look throughout the space.

Choose from six on-trend colours, from warm brushed metallics to bold contemporary tones, and create a bathroom that feels distinctly your own.

Simplicity in

# ORGANIC LIVING



Introduce warmth, texture and natural beauty with the Walnut Linea, page 120, and Eden Freestanding Bath in Matt Clay, page 218. Designed in harmony, their sculptural forms and earthy finishes create a striking focal point while bringing a sense of calm and connection to nature.

Complete the look with brushed bronze brassware, such as Koko on page 362, for a softly refined bathroom made for relaxation.

Embrace this season’s soft beige palette with the Ella in Stone and coordinating fluted basin, page 92, paired with the Lira Freestanding Bath in Stone, page 220. Their creamy tones and sculptural silhouettes create a strong, contemporary foundation.

Introduce depth with rich merlot tiles and statement accessories, bringing texture and architectural character to the space. Complete the look with brushed brass from the Colour by Scudo collection, page 354, for a warm and beautifully balanced finish.

Simplicity in

# SCULPTURAL MODERNISM

Simplicity in

# MINIMAL ELEGANCE

Elegant and effortless, the Linea Square, page 128, brings a refined sense of style to the bathroom. Its fluted finish wraps seamlessly around the vanity unit, while the luxurious matt white basin pairs perfectly with the Slate shower tray, page 308, creating a look that feels clean,  balanced and beautifully considered.

Complete the scheme with Core brushed nickel brassware and coordinating shower screen, page 288, for a soft, curated palette suited to both classic and contemporary interiors.

# WCs

We offer a wide range of WCs designed with smart, user-friendly features. Our options include rimless technology for improved hygiene, easy-clean surfaces, and water-saving systems for a more environmentally friendly bathroom. For added convenience, we also provide comfort height models and short projection designs, perfect for maximising space without compromising on comfort.

### SOFT CLOSE MECHANISM

Our soft close toilet seats close in a slow, quiet, and controlled way to reduce the impact and extend the life of the seat.

### COMFORT HEIGHT

Scudo comfort height WCs are slightly higher than a standard pan to comfortably accommodate taller, less able, or older users.

### EASY CLEANING

Push button quick release toilet seats for easy cleaning.

### REDUCED WATER CONSUMPTION

Dual flush cisterns reduce water consumption for the environmentally conscious and save on energy bills with 3 and 6 litre flush options.

### SHORT PROJECTION

These reduced depth WCs takes up less floor space and are perfect for small bathrooms and en-suites.

### TAILORED FINISHES

Obtain a perfectly styled bathroom with these extra additions to selected WCs. Black and white push buttons and toilet hinge cover caps are available.

### RIMLESS

RIMLESS

We offer a range of rimless WCs with no ledges to reduce bacteria and limescale growth. With the unique flush system, water is projected around the pan, giving an even flow of water over the whole surface of the bowl.

# BASINS

Our diverse basins collection is thoughtfully designed to complement our WC range, offering a variety of styles to suit every bathroom. Choose from elegant pedestal basins, modern wall-hung options, or practical semi-recessed designs. For a contemporary touch, our countertop basins combine sleek aesthetics with everyday functionality—perfect for creating a statement in any setting.

### BASIN OVERFLOW COVERS

Add a finishing touch to your bathroom with our basin overflow covers which also co-ordinate with our mirrors, taps, and accessories. Choose from matte black, brushed brass, white, gunmetal, brushed bronze and brushed nickel overflow cover options to get the complete look. (Supplied with chrome as standard).

# CONTACTLESS SENSOR FLUSH

The Scudo contactless flush sensor is a hygienic, easy-to-install upgrade for new or existing cisterns. Powered by 4 x AA batteries for thousands of flushes, it features an infra-red sensor and manual override. Add a high-end touch to your bathroom with minimal effort and cost.

- Dual flush
- No electrical installation
- Uses 4 AA batteries that can provide thousands of flushes
- Manual back-up, button can still be used as a push button if battery runs out
- Adjustable Dual Flush
- Adjusted between 2 and 6 litres
- RoHS Certified
- IPX4 rated
- Sensor suitable for top mounting only, not suitable for forward facing placement

**HYGIENIC SENSOR FLUSH**
Wave hand over sensor for half flush.
Hold hand over sensor for a full flush.

**EASY TO FIT / RETRO FIT**
The contactless flush sensor valve is a great upgrade for most WCs. Fitting cisterns with a height between 260mm-320mm and a flush button hole of Ø40mm it will complement most cisterns on the market.

**CONTACTLESS FLUSH SENSOR**
FLUSH-SENSOR

£106.00

Scan the QR code to see our video demonstrating how the sensor flush works.

# ALFIE

Inspired by retro aesthetics with a modern twist, Alfie is a statement piece that effortlessly blends classic charm with contemporary sophistication. Designed for both style and functionality, Alfie features a beautifully fluted door, adding depth and texture to any bathroom. Its elegant, handle-free construction incorporates a premium push-to-open mechanism for a sleek, seamless look.

MADE IN BRITAIN

## ALFIE AVAILABLE FINISHES

Available in Sonoma Oak and Matte Black, Alfie lets you choose between a warm, natural wood tone or a bold, modern statement. The Sonoma Oak finish showcases a light yet warm woodgrain that subtly enhances your bathroom space, creating a soft and inviting atmosphere. In contrast, Matte Black exudes luxury and prestige—qualities that make this striking shade a standout choice in contemporary interior design.

# BOTA

Elevate your bathroom with the exquisite Bota collection – a true statement of refined luxury. Expertly crafted with a striking freestanding design, Bota is created to be the focal point of any sophisticated space. Available in both sleek slab and elegantly fluted styles, each piece is thoughtfully designed with meticulous attention to detail.

Bota features a sleek push-to-open mechanism with soft-close functionality, delivering effortless, handle-free elegance.

The slender, sculptural leg set comes in four of our signature finishes, allowing you to personalise your piece with timeless elegance. Complete the look with a premium-quality basin, available in three perfectly proportioned sizes for a flawless finishing touch.

Scan for product & technical information.

**BOTA AVAILABLE FINISHES**

Bota is offered in a curated selection of three elegant matte finishes, each meticulously chosen to evoke a distinct mood and aesthetic: the refined Parisian Green, inspired by subtle urban elegance; the warm and grounded Earth Red, reminiscent of sunbaked terracotta landscapes; and the understated Stone, a neutral hue that exudes quiet sophistication. Bota's push-to-open, soft-close system offers smooth, silent performance with a modern, handleless design.

# LINEA SQUARE

Where Linea Curve softens, Linea Square defines. Precise edges and clean architectural form give this collection a quiet confidence, designed to sit beautifully in modern and minimal spaces alike.

The wall hung vanities are complemented by a luxurious soft-touch matte basin for an extra level of style.

Scan for product & technical information.

## LINEA SQUARE AVAILABLE FINISHES

Linea Square is designed with fluting around the entire unit for a seamless, sculptural feel. Stone sits beautifully alongside soft beige interiors and muted green hues; Sonoma Oak brings a subtle, timeless grain that adapts to almost any scheme; and Matte Black makes the bolder statement – sharp, confident, and made for the uber-modern home.

# MURO PLUS

Muro Plus is as an adaptable, space-efficient, and stylish solution for modern bathrooms. The next-generation reduced depth design is a clever way to make the most of limited space without sacrificing on storage or utility. The option for both wall-hung and floorstanding installations provides flexibility, making it adaptable to various layouts and design aesthetics. The optional matte black frame is a standout feature, adding a sleek, modern twist that transforms the unit into a freestanding piece.

REDUCED DEPTH

# WATER GUARD

We're proud to set a new standard in sustainable bathroom furniture with Waterguard. Bathrooms are naturally high-moisture environments, which can lead to long-term damage. Designed with this in mind, Waterguard is crafted using premium materials and advanced manufacturing techniques. Its unique construction ensures 100% waterproof protection, preventing delamination and offering a lifetime of resistance against swelling. For a low-maintenance, sustainable, and durable bathroom solution, Waterguard is the perfect choice.

WATERPROOF

Scan for product & technical information.

**WATERGUARD AVAILABLE FINISH**

Available in Gloss White, Waterguard is the perfect choice for a low-maintenance, sustainable, and durable bathroom solution. Its high-gloss surface not only enhances durability but also reflects light, creating a brighter, more open feel in your bathroom.

# ESME
# CLOAKROOM

The Esme floorstanding unit is a stylish and practical solution for maximising storage in smaller bathrooms. Its compact design ensures that you can add extra storage without sacrificing valuable space. The slimline profile, combined with a space-saving ceramic basin option, makes it ideal for tight spaces. Whether you're looking to store toiletries or other bathroom essentials, Esme's functionality doesn't compromise its aesthetic appeal, making it a perfect choice for a sleek and organised bathroom.

Scan for product & technical information.

## ESME AVAILABLE FINISHES

Esme offers a variety of stunning finishes to match any bathroom style. Choose from the sophisticated Matte Black, calming Matte Reed Green, or elegant Matte Dust Grey for a modern, minimalist look.
For a more natural, warm aesthetic, the Davos Oak finish adds a touch of wood-like charm, while the Gloss White option provides a sleek, fresh feel that complements any decor.

# SERENE

Modern Slab Doors

Serene transforms simplicity into sophistication. Designed for modern living, the slab fascia embraces pure lines and balanced proportions, creating a sense of calm in every bathroom. Each finish has been carefully curated to reflect a natural palette, bringing depth and softness to a contemporary space. With its effortless versatility, Serene is the perfect canvas to express understated style – refined, timeless, and beautifully tranquil.

# SERENE

## AVAILABLE FINISHES

Supermatte Stone Grey

Introduces a warm, refined neutrality that pairs effortlessly with a wide range of finishes and metallic accents. Its soft, understated surface creates a clean, timeless aesthetic with a distinctly premium feel.

Matte Dark Grey

Brings depth and understated drama to the bathroom, making it ideal for moodier palettes and minimalist interiors. The smooth, refined finish creates a sophisticated, contemporary aesthetic with timeless appeal.

Gloss White

A crisp, light-reflective finish that brings freshness and clarity to the bathroom. Its smooth, polished surface creates a clean, timeless aesthetic that feels effortlessly refined.

# MAISON

Traditional Doors

Maison embodies the warmth and character of traditional design. Inspired by classic shaker principles, its framed fascia brings timeless craftsmanship into the modern bathroom. Every detail has been refined to balance heritage charm with everyday practicality, creating a space that feels both elegant and enduring. With a choice of versatile finishes, Maison invites you to celebrate tradition while shaping a bathroom that feels distinctly your own.

# MAISON

## AVAILABLE FINISHES

Painted Oak
Dark Grey

Painted woodgrain finish brings depth, character and a more traditional sense of craftsmanship to the bathroom. Rich in texture and understated elegance, it pairs beautifully with classic detailing and timeless interiors.

Supermatte
Indigo

A rich, velvety finish that brings depth and quiet sophistication to the bathroom. Its soft, low-sheen surface creates a refined contemporary look, pairing beautifully with warm metallics and natural materials.

Painted Oak
Mussel

A gentle hint of colour and beautifully defined woodgrain bring warmth, texture and timeless character to the bathroom. Its versatile tone blends seamlessly into any scheme, pairing beautifully with bold checkerboard tiles or decadent, antique-inspired brassware.

Supermatte
Stone Grey

Warm supermatte finish paired with timeless shaker detailing brings added character and refined depth to the bathroom. Its versatile neutral tone creates an elegant foundation for both classic and contemporary schemes.

# WILLOW

Skinny Shaker Doors

This slim shaker design redefines tradition with a contemporary edge. By refining the classic shaker frame into a slimmer, more elegant profile, it creates a look that is both timeless and modern. The clean lines and balanced proportions make it versatile enough to complement a range of interiors, from heritage inspired bathrooms to sleek, contemporary spaces. Available in a palette of rich, on-trend colours, the slim shaker brings sophistication and subtle detail to every setting.

# WILLOW

## AVAILABLE FINISHES

Matte Cashmere

An elegant taupe finish paired with slender shaker detailing brings warmth and refined character to the bathroom. Its versatile cashmere tone offers a contemporary interpretation of traditional design, creating a beautifully balanced aesthetic.

Matte Heritage Green

Heritage-inspired matte finish that brings depth and distinctive character to the bathroom. Its striking tone pairs beautifully with warm metallic accents and bold patterned tiles.

Painted Oak Legno Black

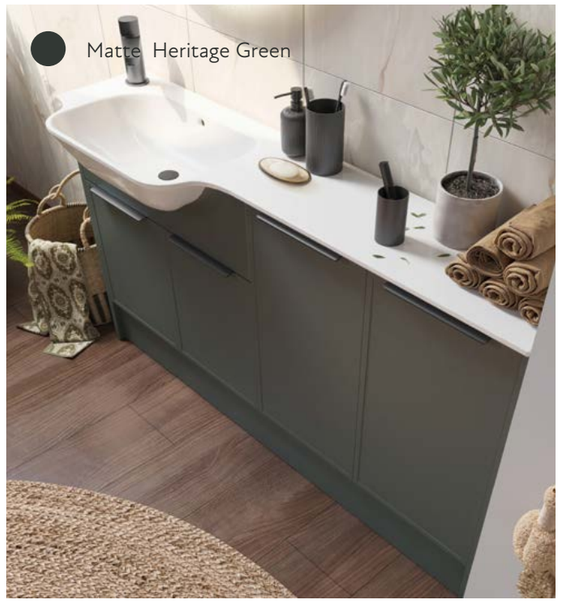
Bold painted woodgrain finish that brings depth, drama and distinctive character to the bathroom. Paired with lighter tones and traditional detailing, it creates a decadent, luxurious aesthetic with timeless appeal.

Matte Marine Blue

Deep matt finish that brings confident colour and refined sophistication to the bathroom. Its timeless tone pairs beautifully with crisp neutrals, natural textures and polished metallic accents.

Matte Antique Rose

Muted blush-toned matt finish that brings warmth, charm and individuality to the bathroom. Its elegant character pairs beautifully with brushed metallics, natural stone and classic detailing.



# FITTED FURNITURE STEP BY STEP

Creating your perfect fitted bathroom is simple. With a versatile choice of furniture, finishes and coordinating products, you can design a space that reflects your personal style while meeting the practical needs of your room.

## STEP 1 Define Your Style

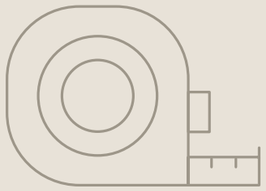
Begin by selecting your preferred door style. Choose from timeless shaker designs for a more traditional look or sleek slab-fronted doors for a clean, contemporary finish.

Your choice of colour and texture will shape the overall character of the room, with a considered collection of painted finishes, subtle neutrals and natural wood effects available.

## STEP 2 Select Your Carcass

Choose the internal carcass finish that best complements your furniture. Oak offers a lighter, more classic aesthetic, while Matt Dark Grey creates a sleek, contemporary look.

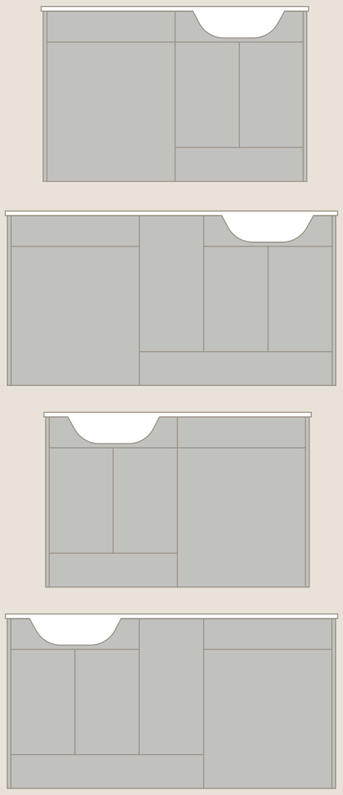
For a more individual finish, mix and match your chosen door and carcass colours to create a design that feels entirely your own.



## STEP 3 Plan Your Layout

Consider how you use your bathroom and where additional storage could make the space work harder. Assess the available room and select either standard-depth 353mm units or space-saving 218mm slim-depth options.

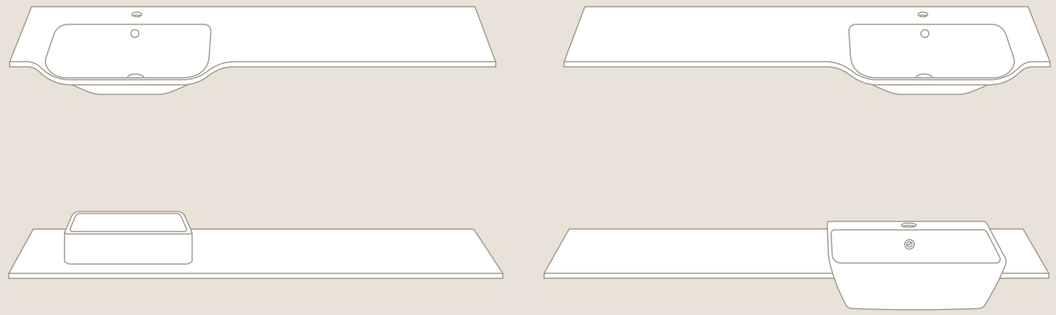
Combine units to suit your layout, making use of otherwise unused areas. Positioning the WC unit close to the existing plumbing may also help simplify installation.



## STEP 4 Choose Your Basin

Complete the foundation of your design by selecting a basin and WC to complement your chosen furniture.

From softly traditional forms to crisp contemporary profiles, our sanitaryware collection makes it easy to create a considered and cohesive bathroom scheme.



## STEP 5 Add Your Finishing Touches

Bring your bathroom together with coordinating worktops, handles, brassware, mirrors and accessories.

Every detail can be tailored to your style and space, creating a fitted bathroom that feels beautifully personal and effortlessly complete.

## STEP 6 Enjoy Your Perfectly Fitted Space

With every element considered, your bathroom is ready to enjoy. Beautifully coordinated, thoughtfully designed and perfectly tailored to your style, space and everyday needs.

# HOW TO CREATE YOUR DESIGN

Designing your fitted furniture is simple. First, select the required unit size, depth and carcass from the tables on the right. Then choose your preferred finish from the colour options below and **replace the XX with the corresponding colour suffix to the end of the product code.** This completes the code for your bespoke fitted furniture design.

| Colour | Code |
|---|---|
| **Serene Colour Codes** | |
| Gloss White | GLWS |

# SHOWER ENCLOSURES

We approach shower enclosure design with precision, carefully considering every detail to deliver exceptional performance, effortless installation and lasting quality. Crafted from premium 6mm or 8mm toughened safety glass, each collection combines refined design with thoughtful innovation, creating enclosures engineered to perform beautifully for years to come.

# SHOWER ENCLOSURES STEP BY STEP

Scudo offers the complete showering package, with something to suit every taste, space and budget.

Discover a premium selection of enclosures and shower trays, which delivers a truly exceptional showering solution.

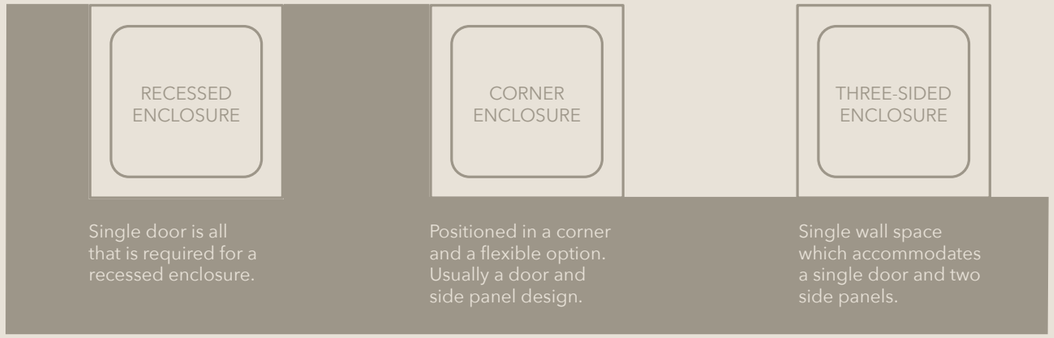
This diverse and versatile collection offers the ultimate in quality, precision and craftsmanship and encompasses something for every style and shape bathroom.

We only use the finest quality materials to guarantee unsurpassed quality, ensuring all our products reach exceptional levels of style and performance.

All our enclosures and shower trays are designed for high performance and are built to last with a lifetime guarantee.

## STEP 1 Position

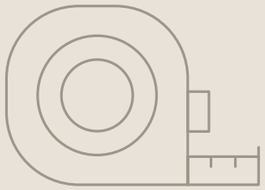
The first decision to make is where to position your shower enclosure in the perfect space to work with your design. Showering positions are usually in a recess, corner or against a wall.



## STEP 2 Measure

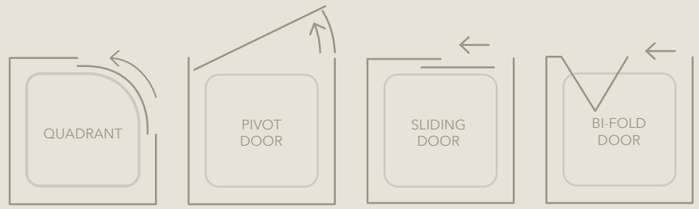
Measuring for the shower enclosure is the next step to creating your new bathroom space. The area that you have available will determine the type of shower space you can accommodate as well as any tolerances or alterations needed.

It's important that you plan ahead and take exact measurements in your bathroom. Then simply choose from our comprehensive range of sizes to create your dream bathroom.



## STEP 3 Style

Once you have decided your bathroom plan and where to locate your enclosure, you can choose your style. Where you want to place your shower may dictate the type of shower enclosures you can choose from. Whatever your design, we have something that will work with your space to create a stylish look.



## STEP 4 Finish

COLOUR BY SCUDO PERFECTLY COLOUR-MATCHED

One of the most exciting elements of bathroom design is choosing the perfect finish. The Colour by Scudo collection is carefully colour-matched across every category, creating a seamless and considered scheme. From timeless chrome to five distinctive metallic finishes, each option brings its own character and adds a new dimension to the space.

**Chrome**

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

**Matte Black**

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

**Brushed Brass**

Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.

**Brushed Bronze**

Give your bathroom the sophisticated appearance it deserves with our striking new brushed bronze finish.

**Gunmetal**

A signature finish for use in modern and contemporary designs to add elegance to your bathroom.

**Brushed Nickel**

Designed to blend seamlessly into any décor, brushed nickel offers a soft, silken glow and a touch of refined texture.

## STEP 5 Glass Options

**Acqua Shield Glass Cleaning Technology**

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range.

By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

Scudo offers a choice of toughened safety glass options with easy clean technology. Choose from 6mm or 8mm thick glass.

## STEP 6 Shower Trays

Complete your bathroom design with a beautifully crafted shower tray. Made from durable stone resin with advanced gel-coat technology and available in a wide range of sizes to suit every space, with a choice of gloss white or textured slate finishes.

**Please see pages 302 to 309 to see our full range of shower trays.**

# MOMENTUM

With generous adjustment options to accommodate out-of-true walls and a design focused on quick, straightforward installation, Momentum delivers a sleek, seamless solution for any modern bathroom.

## ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

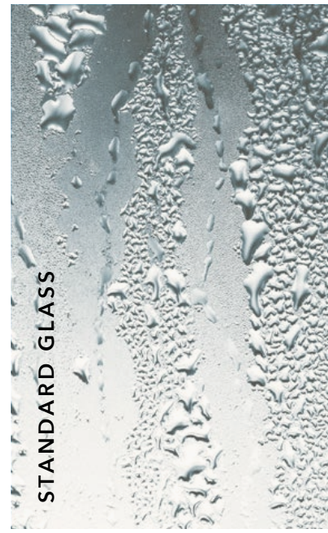
## DESIGNED IN THE UK

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

## ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.



# MOMENTUM SLIDING DOOR

## MOMENTUM AVAILABLE FINISHES

Momentum is available in all six stunning Scudo signature finishes, offering versatility and elegance to suit any bathroom design. Choose from the sleek Chrome, bold Matte Black, luxurious Brushed Brass, warm Brushed Bronze, contemporary Gunmetal, or the timeless Brushed Nickel. Each finish is meticulously crafted to enhance the modern aesthetic while ensuring durability and lasting appeal.

Chrome | Matte Black | Brushed Brass | Brushed Bronze | Gunmetal | Brushed Nickel

# ATHENA

Introducing Athena, our premium collection of enclosures crafted to elevate the modern bathroom. Merging sleek, clean lines with exceptional build quality, Athena embodies the perfect balance of contemporary style and functional design. Each enclosure in the range is thoughtfully engineered to deliver lasting performance while enhancing the overall aesthetic of your space. Whether you're designing a minimalist retreat or a bold statement bathroom, Athena offers the elegance and durability to suit every vision.

# ATHENA
# RANGE FEATURES

## TOUGHGLASS

Athena shower enclosures are built for daily use, featuring toughened safety glass (tempered glass) as standard, which is about four times stronger than regular glass. When broken, tempered glass fractures into small, harmless pieces instead of jagged shards, making it safer for high-traffic areas like bathrooms. All glass is rigorously tested to meet EN14428 standards.

## HIGH-QUALITY FINISHES

Athena enclosures are made to the highest standard, this includes their finish. We are proud to offer a variety of the most stylish finishes currently in the bathroom industry, this features chrome, matte black and brushed brass.

## SEAMLESS DESIGN

Athena frameless enclosures offer significant structural integrity, promoting light and accentuating space. Easy to clean without any worry of build-up along frame edges.

## ECO-FRIENDLY

Athena enclosures endeavours to use eco-friendly, sustainable and/or biodegradable packaging and materials wherever possible to do so.

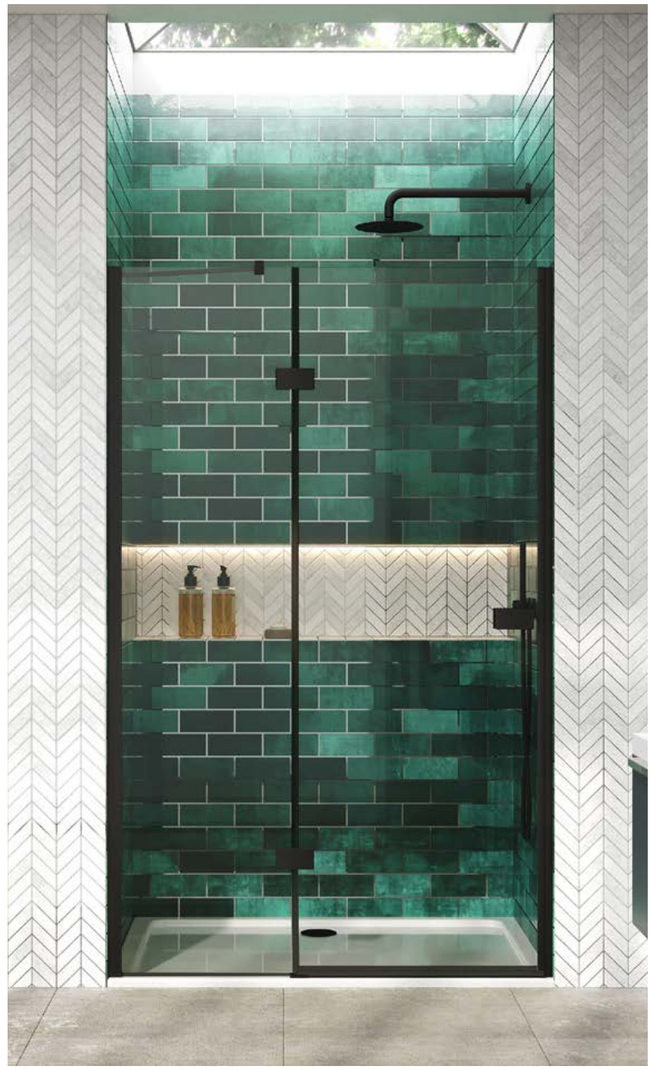
## LIFETIME GUARANTEE

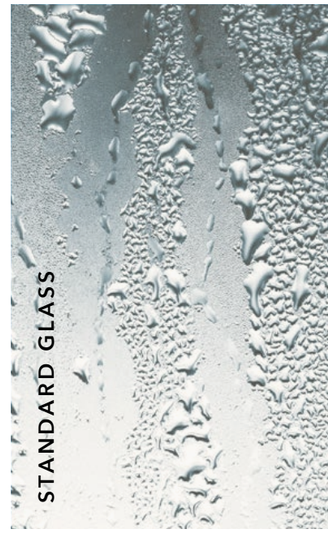
All Athena products offer the ultimate in quality, precision, and craftsmanship, exceeding approved UK and European testing standards.

## ACQUA SHIELD CLEANING TECHNOLOGY

Acqua Shield is a unique hydrophobic coating that is bonded with our toughened safety glass during the manufacturing process. This invisible water-repellent barrier protects against limescale, soap scum and bacteria build-up for an easier clean and longer-lasting gleam.

All glass featured in the Athena showering collection are pre-coated with Acqua Shield, prolonging the life of these key parts of your bathroom.





# ATHENA

## ATHENA AVAILABLE FINISHES

Elevate your bathroom with the premium Athena enclosure collection, available in three stylish finishes: Chrome, Matte Black, and Brushed Brass. Designed to complement any modern space, Athena combines minimalist aesthetics with durable construction, delivering both elegance and functionality to your bathroom.

# KORRA

Discover the Korra collection – a range of high-quality shower enclosures designed for modern living. Crafted with premium materials and precision engineering, Korra offers sleek aesthetics, reliable performance, and effortless functionality to enhance any contemporary bathroom.

# KORRA
# RANGE FEATURES

### SOFT CLOSE DOORS WITH COLOUR MATCHED SEALS

Scudo magnetic door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their stylish finish is matched only by their superior practicality.

### ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring contemporary art styling, the handle stands as a testament to the exquisite design.

### PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

### QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism. This allows the door to swing away from the frame for direct access to all areas of the shower - ideal for simpler and thorough cleaning.

### DESIGNED IN THE UK

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

### ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

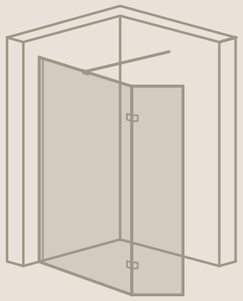
# WETROOMS
# STEP BY STEP

**CREATE YOUR PERFECT WET ROOM**

Scudo wetroom screens offer complete installation flexibility and can be fitted directly onto a shower tray or installed onto a fully tiled wetroom floor.

## STEP 1 Position

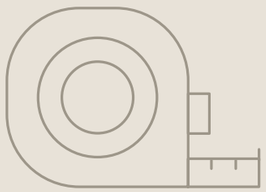
This quality range of Scudo wet rooms has been designed with flexibility in mind and are typically installed in a corner of a bathroom.



Wetroom panel positioned in a corner with a deflector panel.

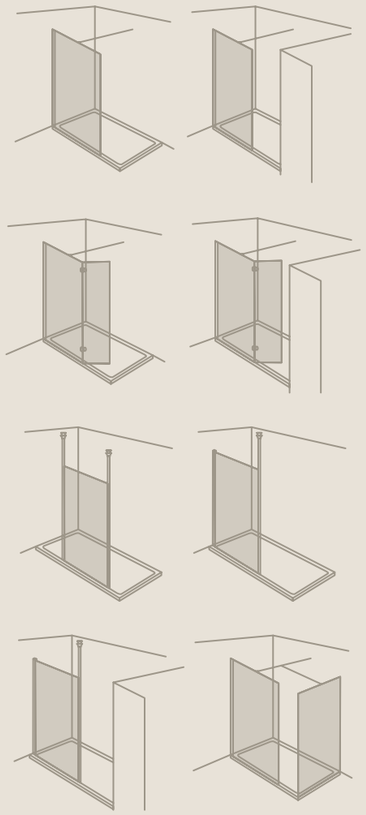
## STEP 2 Measure

Create a minimalist bathroom space with our shower glass panels for wet rooms with options for all bathroom sizes and configurations. Simply measure your space and choose from our glass panels ranging from 600mm to 1200mm.



## STEP 3 Style

The Scudo range of wet room panels and accessories can be combined to create hundreds of different configurations, ensuring the perfect product for your bathroom. When it comes to the framing of your glass panel, you can opt for a modern frameless design or a more sturdy, robust metal profile.

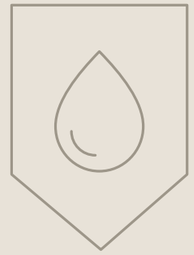


## STEP 4 Finish

COLOUR SCUDO
PERFECTLY COLOUR-MATCHED

Choosing the perfect finish is one of the most defining elements of bathroom design. While chrome remains an enduring classic, the growing demand for colour offers new opportunities to introduce depth, character and individuality to the space.

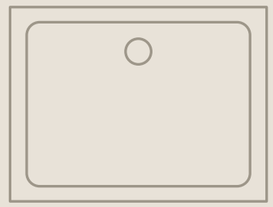
| | | | | | |
|---|---|---|---|---|---|
| Chrome | Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look. | Matte Black | This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom. | Brushed Brass | Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom. |
| Brushed Bronze | Give your bathroom the sophisticated appearance it deserves with our striking brushed bronze finish. | Gunmetal | Signature finish for use in modern and contemporary designs to add elegance to your bathroom. | Brushed Nickel | Designed to blend seamlessly into any décor, brushed nickel offers a soft, silken glow and a touch of refined texture. |



## STEP 5 Glass Options

All our glass panels are made from toughened safety glass. All Scudo wet room glass panels are 1950mm or 2000mm in height for extra practicality.

Our panels are also treated with Acqua Shield glass cleaning technology which resists the build-up of limescale and grime on the glass surface making it easier to clean. On-trend fluted glass is now available as an option.



## STEP 6 Shower Trays

A shower tray provides a clearly defined showering area, helping to contain water and offering added reassurance, while a wetroom installation creates a more seamless, open-plan aesthetic. Whichever option you choose, correct installation and waterproofing are essential to ensure lasting performance.

**Please see page 302 to see our full range of shower trays.**

# FORTE

Introducing our quality Forte Wetroom Collection, designed for both style and durability. Each panel stands at an impressive 2000mm in height and features 8mm toughened safety glass for added strength and safety. Finished with an Aqua Shield glass treatment to help repel water and reduce cleaning, these wetrooms can be installed on either a shower tray or tiled floor, offering flexibility for any bathroom layout.

# FORTE WETROOMS & PROFILES
## RANGE FEATURES

### PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

### ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against limescale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

### DESIGNED IN THE UK

With a strong ethos for serving the needs of a UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years.

As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

# FORTE WETROOMS

- 2000mm in height
- 8mm toughened safety glass
- Acqua Shield glass treatment as standard
- Modern minimalist support arm included
- Can be installed onto a shower tray or a tiled wetroom floor
- 20mm adjustment in wall channel for out of true walls
- Lifetime guarantee

## CEILING POSTS & PANELS

The floor to ceiling post can fitted to any Scudo 8mm wetroom panel. Supplied in two sections, the post can be easily cut down to suit any ceiling height under 3 metres. The post can be secured to a shower tray or tiled floor, as well as the ceiling to create a stable, practical addition to your wetroom installation.

Two wetroom panels simply combined to create a minimalist walk in design. The image (right) shows two panels and their support arms combined using a joining piece (SCUDJOIN).

Slate Shower Trays 308

Scan for product & technical information.

# RIVA SHOWER TRAYS

## ECO-STONE CONSTRUCTION

Riva shower trays are manufactured using advanced Eco-Stone technology, combining a bespoke mineral composite with a specialist gel-coat formula. The result is a strong, durable surface designed to resist slipping, scratches, stains and UV damage.

## RESPONSIBLY SOURCED MATERIALS

Limestone powder forms the primary filler within every Eco-Stone tray, complemented by recycled content recovered from glass production. This considered material composition helps reduce waste while maintaining the strength, stability and lasting performance required from a shower tray.

## HIGH-GLOSS GEL-COAT FINISH

A specialist gel-coat surface gives Riva its smooth, high-gloss appearance, creating a refined finish that is easy to clean and designed to retain its quality over time.

## RESISTANT TO DELAMINATION

Unlike traditional acrylic-capped trays, Riva's gel-coat surface is applied directly to the mineral composite structure. This integrated construction removes the risk of the surface separating, helping to prevent bubbling, lifting and premature failure.

## RIVA SHOWER TRAYS

Introducing the luxurious collection of Riva shower trays, meticulously crafted from Eco-Stone a remarkable blend of mineral compounds and resin.

These exquisite trays showcase a 30mm thickness, offering unrivalled durability. Their gel coat exterior layer have been expertly thermally fused, ensuring maximum strength.

# SLATE SHOWER TRAYS

## ECO-STONE CONSTRUCTION

Precision-cast using Eco-Stone mineral composite technology, combining strength, stability and lasting durability with a more considered approach to material use, while retaining its refined appearance through everyday use.

## TEXTURED SLATE SURFACE

Inspired by the natural character of slate, the finely textured surface brings depth and refinement to the shower space. Comfortable underfoot, it is also antibacterial, scratch resistant and easy to clean.

## INTEGRATED WASTE DESIGN

Discreetly concealed within the tray, the integrated waste creates a clean, uninterrupted surface and a refined, streamlined finish. Water flows seamlessly towards the hidden outlet, creating a subtle infinity-edge effect inspired by the natural movement of water.

## SLIP-RESISTANT FINISH

The carefully developed surface provides enhanced grip underfoot, while hydro-reflective properties help guide water efficiently towards the waste to reduce pooling and support confident everyday use.

## SLATE SHOWER TRAYS

Slate draws inspiration from the calm movement of water, combining the natural character of slate with precision-cast construction. Its beautifully textured surface, low-profile design and refined finish create a seamless addition to contemporary bathrooms, while exceptional strength and everyday durability ensure lasting performance.

COLOUR SCUDO

One Colour. One Bathroom. One Brand.

Chrome

Contemporary and stylish, our chrome stainless steel is a popular choice to create a timeless beautiful look.

Matte Black

This finish is ultra modern and lends itself to an elegant look to add a touch of class to any bathroom.

Brushed Brass

Transform your shower with our on-trend luxury brushed brass finish to complete your dream bathroom.

Brushed Bronze

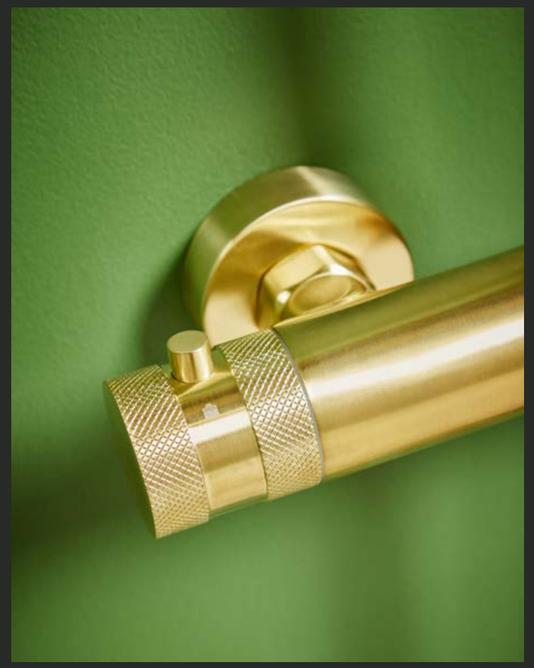
Give your bathroom the sophisticated appearance it deserves with our striking brushed bronze finish.

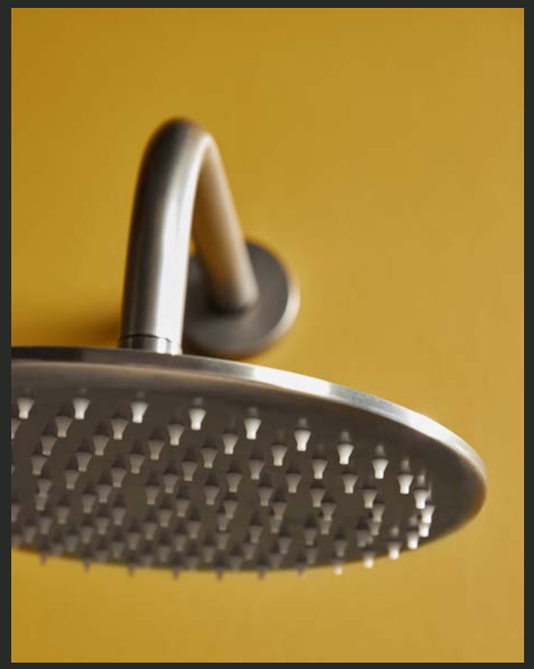
Gunmetal

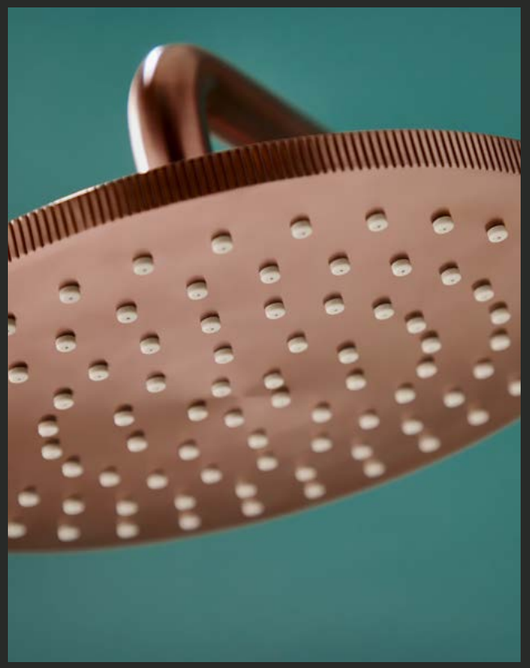
Signature finish for use in modern and contemporary designs to add elegance to your bathroom.

Brushed Nickel

Designed to blend seamlessly into any décor, brushed nickel offers a soft, silken glow and a touch of refined texture.







# COMPONENT SHOWERS YOUR WAY

**Component showers offer a customisable approach to designing your own unique shower experience, allowing you to mix and match various shower components to suit your preferences and needs.**

By selecting individual elements such as shower heads, valves, slide rails, handsets, and other accessories, you have the freedom to create a shower system tailored specifically to your desired functionality, style, and comfort.

## ALL SHOWER COMPONENTS

### Fixed Shower Head

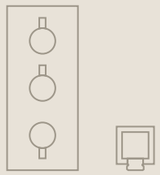
Our shower heads come in various shapes and sizes to suit your bathroom's aesthetic.

### Wall or Ceiling Arm

The wall arm offers stability and ease of installation.

The ceiling arm provides a luxurious overhead rainfall shower experience.

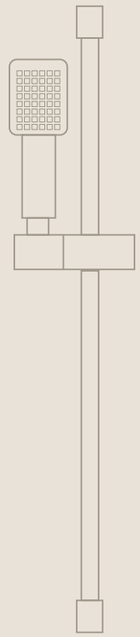
### Concealed or Exposed Valve



Concealed valves provide a clean and minimalist look by hiding the plumbing. Choose from 1, 2 or 3 outlets.

Exposed valves offer easy access and a traditional aesthetic.

### Slide Rail or Handset



The slide rail provides adjustable height and hands-free convenience.

The handset offers versatile, targeted spray and easy manoeuvrability.

# SELECT A VALVE

# CONCEALED VALVES

Concealed valves are a sleek and modern option for bathrooms, offering a minimalist aesthetic by hiding most of the hardware within the wall. These sets control our fixed shower heads, riser rails and outlets and bath fillers with 1, 2 or 3 outlets.

## KEY FEATURES

- Manufactured from solid brass.
- Suitable for water systems between 0.2 to 4 bar pressure.
- Suitable for all water systems.
- Thermostatically controlled.
- Built-in anti-scald device.
- Suitable for use with shower pumps.
- 10 year guarantee.

## CHOOSE HOW MANY OUTLETS & HANDLES

### TWIN HANDLE, 1 OUTLET

**Handle 1**
Turn 1 shower accessory on and off.

**Handle 2**
Hot/cold temperature gauge.

### TWIN HANDLE, 2 OUTLETS

**Handle 1**
Turn left or right to select accessory 1 or 2.

**Handle 2**
Hot/cold temperature gauge.

### TRIPLE HANDLE, 2 OUTLETS

**Handle 1**
Turn 1 shower accessory on and off.

**Handle 2**
Hot/cold temperature gauge.

**Handle 3**
Turn 2nd shower accessory on and off.

### TRIPLE HANDLE, 3 OUTLETS

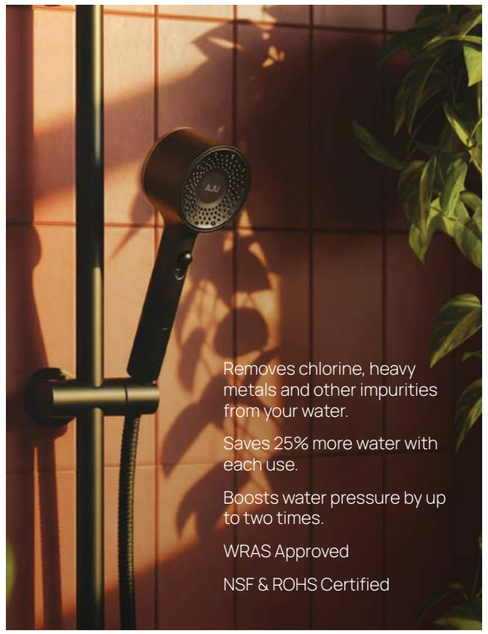
# ULA
Beauty Backed **Science**

Powered by advance water filtration, ULA transforms your daily shower into a self-care ritual that supports healthier skin and hair.



The ULA Shower Head Filter System is designed to change that. Using multi-stage filtration technology, it reduces impurities directly at the source, giving you cleaner, softer water and instantly more gentle showers.

ULA Starter Kit

Across the UK, tap water is often hard meaning it's full of minerals, chlorine, copper and even traces of lead. Over time, these impurities can dry out skin, dull your hair, and strip away your natural balance.

## HEATING ELEMENTS

| Colour | Description | Price Inc VAT | Code |
|---|---|---|---|
| Chrome | 150 watt Standard Heating Element Chrome | £70.00 | HB150WSC |
| Black | 150 watt Standard Heating Element Black | £70.00 | HB150WSB |
| Chrome | 300 watt Standard Heating Element Chrome | £74.00 | HB300WSC |
| Black | 300 watt Standard Heating Element Black | £74.00 | HB300WSB |
| Chrome | 600 watt Standard Heating Element Chrome | £79.00 | HB600WSC |
| Black | 600 watt Standard Heating Element Black | £79.00 | HB600WSB |

**Electrical only heating**
When selecting an element(s) we advise to choose one which matches closest to the radiators T50 Watts as possible without exceeding the products maximum. Exceeding the maximum runs the risk of the element overheating. This can be done using more than 1 element if required.

Electric only installation, element(s) should match room BTU / Watt requirement, and supersede the radiator output when selecting suitable size product.

**Example room requires**
1900 BTU's or 556 watts, requires 600 watt element so you would be unable to select a radiator under 600 watts.

**Dual Fuel element**
As this method usually means the electric element is a back up rather than primary system an element can be as low as 50% of the maximum radiator T50 Watts.

# RANGE FEATURES

**Look out for these key features when choosing your bathroom mirror or cabinet.**

Selecting the right mirror can truly complete a bathroom design. In bathrooms, both mirrors and mirrored cabinets play an important role–they enhance light, add style, and help create the illusion of a larger space. They also provide valuable storage solutions. In smaller bathrooms, a mirrored wall cabinet is a smart option for gaining extra storage.

### LANDSCAPE & PORTRAIT MOUNTING
Add a personal touch to your bathroom by hanging a mirror that complements your decor and style. These mirrors can be hung landscape or portrait to enhance the ambiance of your space and create a sense of depth.

### EASY TOUCH COLOUR CHANGE
These mirrors are built using an ultra-modern no-touch on/off switch. The light can be turned on and off by gently touching the sensor on the glass or waving your hand in front of the sensor. On selected products the colour of the light can be changed from warm white to bright white by touching the sensor and waiting until the desired colour/brightness is reached.

### INFRARED ON/OFF SWITCH
Some of our mirrors and cabinets are built using no-touch on/off switches. By simply moving your hand under the sensor the mirror can be turned on and off without the need for a pull switch or leaving fingerprints on the mirrors.

### WIRELESS CHARGING PAD
Latest technology featuring a wireless charging pad to safely charge compatible phones and accessories even when the lights are off.

### HEATED DEMISTER PAD
All of our mirrors come with heated demister pads, enabling you to use the mirrors in steamy bathrooms. The pads heat the mirror to above room temperature, which stops mist appearing on the mirror.

### IP44 RATED
A selection of mirrors are IP44 and suitable for installation in zones 2 or 3 of a bath/shower room.

### DOUBLE-SIDED MIRRORS
Some of our cabinets are available with mirrors on the inside as well as outside.

### TOOTHBRUSH CHARGING POINT
Innovative bathroom mirror charges compatible electric toothbrushes so that they have full power all the time.

### BLUETOOTH™
This innovative feature allows any BluetoothTM-enabled device to stream music or live radio to the mirror.

### SHAVER SOCKET
Built-in charging socket suitable for toothbrushes, shavers and trimmers.

# ALBA
## LED MIRROR

Enhance your space and add the perfect finishing touch with our Alba LED Mirror. Alba features a modern semi-circular design with straight edge and is perfect to fit stylishly above your furniture or anywhere in the bathroom.

The backlit mirror enhances the circular shape and provides an ambient glow, and the built-in demister pad prevents steaming. The infrared technology control adjusts between cool and warm LED lighting.

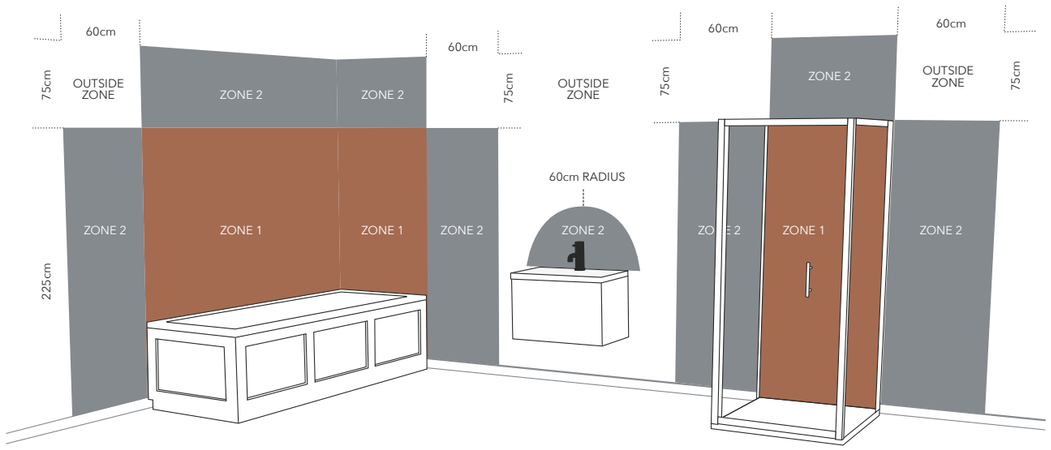
| Heating | 5 Years | Inhibitor must be within the system at all times, to prevent corrosion. Proof is required. | |
| Mirrors & Cabinets | 5 Years | Electrical Components | 2 |
| Accessories | Lifetime | - | - |



## ZONE 1

Refers to the area above the shower up to a height of 2.25m and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

## ZONE 2

Covers an area of 0.6m wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

## OUTSIDE ZONE

This has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom light is rated IP65, then the 6 means its 'Protected against dust' and the 5 means its 'Protected against water jets' from a shower, tap or cleaning processes from any direction.

**First numeral** - protection against ingress of foreign bodies, e.g. tools, dust, fingers, etc.

**0** No protection
**1** Protected against solid objects with a diameter of 50mm and over (e.g. accidental insertion of hands)
**2** Protected against solid objects over 12mm (e.g. jointed fingers)
**3** Protected against solid objects over 2.5mm (tools)
**4** Protected against solid objects over 1mm (small wires)
**5** Protected against - limited ingress permitted (no harmful deposit)
**6** Totally protected against dust

**Second numeral** - protection against ingress of liquids.

**0** No protection
**1** Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect
**2** Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.
**3** Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.
**4** Protection against splashing. Liquid splashed from any direction shall have no harmful effect.
**5** Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.
**6** Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.
**7** Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.
**8** Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

Prices included in this brochure supersede all previous printed publications. Products and prices are correct at time of printing. We reserve the right to change prices at any time without notice. Colours shown in this brochure are as accurate as the printing process allows.
