ABOUT US

Shaped by over 100 years of product design heritage, every Scudo product is created with care, purpose and a deep attention to detail. From the latest manufacturing innovations to durable materials and high-quality finishes that work beautifully together, each element is carefully considered.

Scudo. Quality in every detail.

WRAS APPROVED PRODUCT

For added peace of mind, our selection of WRAS approved K°GE taps have been fully tested and are compliant with the requirements of the water regulations and byelaws.

K°GE
KITCHEN TAPS

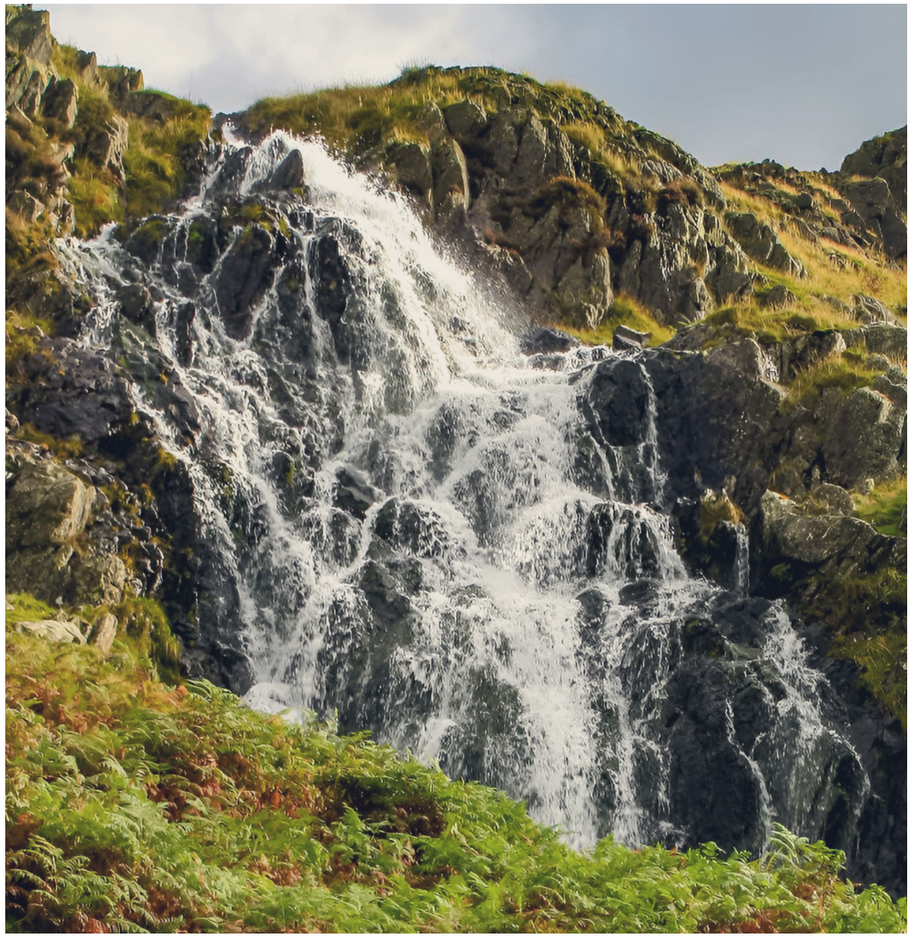

Save time and energy with K°GE, the innovative multi-functional hot water taps from Scudo. Designed to deliver boiling, filtered and chilled water instantly from a single tap, K°GE simplifies everyday tasks while reducing waste and improving efficiency. Crafted to the highest standards, with refined detailing and durable finishes, the K°GE collection enhances both the look and feel of the modern home.

DESIGNED FOR THE WAY YOU LIVE, ENHANCING EVERYDAY MOMENTS.

Instant boiling water is more than a convenience. It represents a smarter, more efficient approach to everyday living, saving time, supporting energy-conscious habits, and redefining how water is used in the modern home.

KOGE instant hot water taps remove the need to boil kettles or wait for water to heat. Water is delivered at the required temperature, precisely when needed—helping to minimise unnecessary energy use and reduce water waste.

SAVE WATER. REDUCE PLASTIC. USE ENERGY SMARTER.

KOGE precision engineering is designed to elevate everyday kitchen rituals. The KOGE Kitchen Tap Collection delivers instant boiling, hot, chilled, and on selected models - filtered water, seamlessly unified within one refined kitchen fixture.

WHY CHOOSE K°GE?

ENERGY EFFICIENT APPROACH

Instant hot water, delivered only when needed. Adjustable temperature control from 45°C to 98°C helps reduce unnecessary energy and water use, without compromising your daily routine.

SIMPLE INSTALLATION

Designed to fit seamlessly into modern kitchens. K°GE 3-in-1 and 4-in-1 taps connect to standard mains water supplies and fit a standard tap hole. A compact under-sink tank and filter system can be discreetly housed within your kitchen cabinetry.

SAFETY IN MIND

Designed with safety in mind. Fully insulated spouts and handles remain cool to the touch, while an integrated child-safe lever offers added reassurance for every household.

TIME, SIMPLIFIED

Hot water, instantly. K°GE taps deliver water up to 98°C on demand, making everyday tasks quicker and more effortless - from preparing hot drinks to cooking and rinsing.

A CLEANER KITCHEN

Free your worktops from unnecessary appliances. By replacing the need for a kettle, K°GE taps help create a cleaner, more refined kitchen space.

CONFIDENCE, GUARANTEED

Every K°GE tap is backed by a two-year warranty when registered, covering manufacturing and material defects from the date of installation - for complete peace of mind.

FILTERED WATER, INSTANTLY

K°GE 4-in-1 taps also deliver cold filtered water instantly. The advanced K°GE filtration system removes unwanted sediments effortlessly. For more information, see page 22.

OUR STYLES

KOGE kitchen taps are available in two models, each offered in three finishes. The curved profile is designed to complement both contemporary and traditional kitchen settings, providing a balanced and versatile aesthetic.

A 360° swivel spout delivers full rotational movement, allowing greater reach across the sink area. This ensures practical flexibility when rinsing, filling pots, or working with larger cookware, while maintaining smooth and controlled operation.

PREMIUM FINISHES

The distinctive fluted handle is an exclusive design available only on KOGE kitchen taps. Offered in chrome, matte black, and brushed brass, it complements any kitchen décor.

EDITION 22

FOR BEAUTIFUL BATHROOMS, CHOOSE SCUDO.

Scudo is a brand built on the belief that exceptional bathrooms are defined by the details, bringing together quality, reliability and proven performance across every collection.

Created with equal consideration for installers and homeowners, every piece is engineered to perform beautifully while maintaining a refined, contemporary aesthetic. Nothing exists within a Scudo collection without intention, every finish, every function and every detail plays its part in creating a bathroom that feels as good as it looks, day after day.

From the gentle curve of a basin to the quiet assurance of a soft closing drawer, from the tactile grain of a cabinet finish to the reassuring weight of a handle, each element is thoughtfully considered and crafted with purpose. Many products are supported by a lifetime guarantee, reflecting our commitment to enduring quality.

SCUDO. QUALITY IN EVERY DETAIL.
